

InvisiBrake Reference Information

Please note: this is NOT a fit chart. This resource document contains information on vehicles that have been seen at the Roadmaster factory. The chart is intended to be a helpful reference for installers and will continue to expand as more vehicles become accessible.

Absence from this resource document simply means the vehicle has not been through our factory.

Every reasonable effort was made to verify the accuracy of this information; however, ROADMASTER, Inc. does not warrant its accuracy and will not be liable for any claims or damages which may result from errors or omissions. Use this information at your own risk.

Information is continually changing and revised as new vehicles and information becomes available. Accordingly, this information is subject to change without any notice.

Questions? Comments? Call ROADMASTER Customer Service at 1-800-669-9690.

InvisiBrake Application Information

Current as of March 4, 2024

Abbreviations Key:
 DS = Driver's Side
 PS = Passenger Side

Notes:

1. InvisiBrake is not compatible with diesel models of this vehicle.
2. InvisiBrake is not compatible with Hydroboost brakes.
3. InvisiBrake may not fit under the seats of vehicles with power seats.
4. Start the brake pressure at 20 psi and adjust up if additional braking force is desired.
5. InvisiBrake cannot be used because there is no way to attach the vacuum booster in this vehicle.
6. Trimming is necessary for the control unit to be mounted in this location.

*** This braking pressure is just a starting point. Please refer to the installation instructions for adjusting braking pressure, as the pressure needed can vary due to the following:**

- Number of curves and tightness of the curves in the cable. The tighter the curves, the higher the pressure to achieve the same amount of braking power.
- Location of the clamp on the brake pedal arm -- the higher the clamp, the higher the pressure to achieve the same amount of braking power.
- Hybrids should always start at 15 psi and be adjusted up accordingly, depending on the vehicle.
